

## Company Introduction

Elyon Sourcing & Fire Services is a specialist in complete fire protection, a company that has been approved by the SABS 1475.

We hereby like to offer you Prioritised Services through our well trained and dedicated Services technicians. Your safe is our concern.

We are committed to safety and quality workmanship. We sell and service all size and types of fire protection equipment. We also offer free risk assessments, pointing to you, the dangers that you or your staff may have over looked.

We meet our goals by offering our services at a compatible price to our customers and enriching and developing the skills of our staff.

Elyon Sourcing and Fire Services is a company with well experienced technicians, whose main ambit to Supply, Service and Install all types of Firefighting Equipment.

**WE ARE  
COMMITTED TO  
SAFETY AND  
QUALITY  
WORKMANSHIP**

## Co2 Extinguishers (Carbon Dioxide)

### 2kg Co2 Extinguisher & Hose including Wall Bracket

#### Specifications (B&C)

Charge	2.0kg
Full Weight	8.5kg
Empty Weight	6.5kg
Discharge Time	10sec
Range of discharge	1m
Corrosion Protection	L
Filling Ratio	0.66
Working Pressure	5000kPa
Hydrostatic Test Pressure	25000kPa
SABS Specification No	SANS 1567
SABS Permit No	9068/14365

CO2STECC02

### 5kg Co2 Extinguisher & Hose including Wall Brackets

#### Specifications (B&C)

Charge	5.0kg
Full Weight	18.8kg
Empty Weight	13.8kg
Discharge Time	25sec
Range of discharge	2m
Corrosion Protection	L
Filling Ratio	0.66
Working Pressure	5000kPa
Hydrostatic Test Pressure	25000kPa
SABS Specification No	SANS 1567
SABS Permit No	9068/14365

CO2STECC05

### DCP Extinguishers (Dry Chemical Powder)

#### Features:

- Controllable discharge with pressure gauge and relief valve, Simple Operation, compact and attractive.

#### Application suitability

- **Class A**  
(Combustible material) - Wood, Paper, Textiles
- **Class B**  
(Flammable Liquids) - Gasses, Petrol, Oil, Solvents, Propane, Butane, LPG, Acetylene
- **Class C**  
(Electrical)- Safe for use where electricity is present.

#### Maintenance

- Every 12 Months, or sooner (depending on local authorities)
- Pressure Testing of cylinder is required every 5 years to comply with SABS 1475

# DCP Extinguishers (Dry Chemical Powder)

## 1.0kg DCP Extinguisher including Vehicle Bracket

### Specifications

Material	Mild Steel
Full Weight	1.98kg
Empty Weight	0.98kg
Discharge Time	6sec
Range of discharge	3m
Height	385mm
Diameter Shell	76mm
Protrusion from wall	86mm
Working Pressure	1400kPa
Hydrostatic Test Pressure	2100kPa
SABS Specification No	SANS 1910
SABS Permit No	9068/14365

DCPCOMBF1

## 1.5kg DCP Extinguisher including Vehicle Bracket

### Specifications

Material	Mild Steel
Full Weight	2.9kg
Empty Weight	1.4kg
Discharge Time	8sec
Range of discharge	3m
Height	335mm
Diameter Shell	101mm
Protrusion from wall	111mm
Working Pressure	1400kPa
Hydrostatic Test Pressure	2100kPa
SABS Specification No	SANS 1910
SABS Permit No	9068/14365

DCPCOMBF1.5

## 2.5kg Extinguisher DCP including Vehicle Bracket

### Specifications

Material	Mild Steel
Full Weight	4.5kg
Empty Weight	1.8kg
Discharge Time	10sec
Range of discharge	4m
Height	485mm
Diameter Shell	101mm
Protrusion from wall	111mm
Working Pressure	1400kPa
Hydrostatic Test Pressure	2100kPa
SABS Specification No	SANS 1910
SABS Permit No	9068/14365

DCPCOMBF2.5

## 4.5kg Extinguisher DCP including J Bracket

### Specifications

Material	Mild Steel
Full Weight	7.8kg
Empty Weight	3.3kg
Discharge Time	13sec
Range of discharge	5m
Height	425mm
Diameter Shell	175mm
Protrusion from wall	185mm
Working Pressure	1400kPa
Hydrostatic Test Pressure	2100kPa
SABS Specification No	SANS 1910
SABS Permit No	9068/14365

DCPCOMBF4.5

## 9kg Extinguisher DCP including J Bracket

### Specifications

Material	Mild Steel
Full Weight	13.3kg
Empty Weight	4.3kg
Discharge Time	18sec
Range of discharge	8m
Height	656mm
Diameter Shell	175mm
Protrusion from wall	185mm
Working Pressure	1400kPa
Hydrostatic Test Pressure	2100kPa
SABS Specification No	SANS 1910
SABS Permit No	9068/14365

## GENERAL FIRE/SAETY ACCESSORIES

### FIRE BLANKETS

- Fire blankets are made of fire resistant materials. They are particularly useful for smothering fat pan fires or for wrapping round a person whose clothing is on fire.
- They will be marked to show whether they should be thrown away after use or used again after cleaning in accordance with the manufacturer's instructions.
- A Fire blanket or damp cloth should be used on a fat pan fire.
- Never use a fire extinguisher on a fat pan fire.
- Fire blankets should be kept in the kitchen.
- Do not put your blanket too close to your cooker, you may not reach it in the event of a fire.

### DETAILS

- Low cost, lightweight (620gm/m), and flexible but highly efficient fire fighting agent, which can extinguish a fire in its early stage by smothering.
- They are able to withstand extremely high temperatures.
- The range of fire blankets is manufactured from fiber glass which is coated on both sides with a specially developed high fire temperature resistant coating.
- The fabric has excellent fire blocking properties and will withstand a blowtorch flame at 1.100 °C for over 15 minutes in static conditions.
